

What freedom means to me:

freedom means the same thing it meant to me when I was in prison. The only freedom I have ever known has been in God. I am beyond grateful to have been exonerated and released. I can't put that type of gratitude into words. But, to be honest, I will never be truly free until the other innocent people in prison are freed as well. Knowing what it means to be in prison when you're innocent, and knowing that others are suffering through that, prevents me from being truly free. When I think of them it takes me back to that place. It will always be my mission to shine a light on their stories.
